

NAMIBIAN INSTITUTE OF ARCHITECTS AWARDS OF MERIT 2008

The Namibian Institute of Architects awards of merit are conferred approximately every two to three years and aim to encourage the highest levels of performance for architects in our society. In addition to this they acknowledge the achievement of those projects that have risen beyond the basic level of competence, in being merely structurally sound and functionally adequate. Three categories of award exist, namely: Awards of Commendation, Awards of Achievement and Awards of Excellence.

On behalf of our membership the President of the Namibian Institute of Architects, together with the board members, hereby congratulate the following architects for the awards they received at this year's Merit Awards ceremony, and wishes to thank them for the contribution they have made to the quality of the Namibian built environment by way of these projects:
